RELATED EXPERIENCE

Rolling Insights, Calgary, Canada   April 2024 – Present
Web Developer / Web Designer Intern
- Marketing: Define and implement new features based on metrics and user feedback.
- Design: Redesign existing web pages and blocks from concept to engineering, creating user flows, site maps, low and high-fidelity wireframes, and guidelines using Fig Jam and Figma.
- Development: Develop pages with HTML, CSS, and JavaScript in Umbraco.
- QA: Test and retest features implemented by other developers.
- Collaborate with developers, engineers, and project managers to define process flows and software solutions

Key accomplishments:
- Redesigned and Redeveloped Historical page for better user experience and engaging them to sign up for services to become regular customers.
- Implemented feature sets utilizing HTML, CSS, and JavaScript, attributing users DataSpace tables to the community and facilitating the promotion of user profiles as brands.
- Successfully provided manual testing for up to 5 development tickets per day, ensuring the quality and reliability of implemented features.

Making Changes Association, Calgary, Canada   Oct 2023 – April 2024
Full-stack Web Developer Trainee
- Gained knowledge on how to use tools and libraries.
- Mastered HTML, CSS, JavaScript, Python, SQL languages.
- Completed Quizzes/Assignments for SozenTech including a final group Capstone Project.
- Boosted professional skills in communication, presentation and networking with Workshops on Employment and Power skills.
- **Key accomplishments:**
- Successfully secured one of the 17 spots out of 150 initial applicants for the Fall 2023 Cohort of the Women in Technology Program.
- Engaged in team-based projects, fostering effective communication and collaboration, while showcasing hands-on IT experience in technology implementation from theoretical concepts to practical applications.
- As a team member, secured 1st place in a Hackathon Competition for developing a recognition application for Winpro using Microsoft Power App.

OTHER EXPERIENCE

Calgary Public Library – Calgary, Canada   Mar 2023 – Apr 2024
Library Experience Assistant
- Catalogued and organized library materials alphabetically, using Dewey Decimal system.

- Used specific computer programs for amending and checking items.
- Managed event preparation and training staff on a monthly basis.
- Engaged with patrons to inform them about programs and activities, providing advice on materials, and coordinating activities within the library.

Key accomplishments:
- Expanded professional knowledge by attending from 1 to 4 training sessions per month.
- Demonstrated exceptional time management skills by effectively juggling multiple responsibilities, leading to increased productivity and efficiency on daily tasks.

Matis Art Studio – Kyiv, Ukraine   Aug 2019 – Aug 2022
Artist

- Managed projects, communicating with clients and co-workers as a team lead of the projects.
- Developed sketches and prototypes for new paintings with Adobe Photoshop.
- Created custom drawings and paintings using different techniques.

Key accomplishments:
- Effectively managed and completed 5 team art projects as the project manager and 138 projects independently.
- Implemented new methodologies and approaches for project layouts, advancing the digitalization process to enhance workflows. Those initiatives resulted in expanding the product range by 20% and reducing expenses by 15%.

National Art Museum of Ukraine – Kyiv, Ukraine   Mar 2018 – Aug 2021
Research Associate

- Developed, organized and conducted lessons, tours, workshops and other museum educational programs.
- Facilitated group sessions and provided one-on-one support, training, or lecture.

Key accomplishments:
- Researched needs and gaps in service delivery to design and facilitate 9 courses per month for over 900 customers.
- Effectively utilized resources to develop and manage the first online educational course during the initial month of the COVID-19 lockdown; mastered and leveraged Google Workspace, Adobe Premiere, and copywriting in record time.
